

21ST ANNUAL

Healthcare Symposium

AUGUST 18-20, 2017

FAIRMONT ORCHID HOTEL | WAIKOLOA | HAWAII ISLAND | HAWAII

TEAMWORK

The Key to Healthcare Innovation & Improvement

Sustaining our healthcare system requires teamwork at all levels: Teamwork within each office, between primary care providers and specialists, hospitals and physicians, health plans, employers, service providers and the community, and between patients, their families and doctors. Agreement on shared goals, effective communication on keeping commitments, skill improvement and attitude adjustments — This is the stuff of good teamwork anywhere.

This year's Symposium brings together healthcare leaders who have embraced adaptive change and can give insight into ideas on how to make healthcare a team sport at all levels. We will receive an update on "playing field" conditions from a national perspective, understand how teamwork improves care and how to make teaming effective at the patient and individual office level. The Symposium will look at models for improving teamwork to optimize care for complex patients. We will also explore "business" options for organizing provider teams to deliver care effectively.
