# eClinicalWorks

# HEDIS Analytics

Healthcare Effectiveness Data and Information Set (HEDIS®) is a set of performance measures designed to improve the delivery of quality care and evaluate access to healthcare services.

eClinicalWorks offers HEDIS Population Health services integrated within the eClinicalWorks EHR.

## Benefits

- Helps identify and engage with patients with gaps in their care.

- Evaluates providers' performance, permitting easy comparisons among peers.

- Interact with your data at the practice, provider, and patient level with intuitive filters and controls.

- Measures patients' compliance with treatments.

## Key features

- Enroll and track patients within cohorts.

- Access patient records from the dashboard.

- View, query, and measure HEDIS data using customizable filters.

- Integrates with eClinicalMessenger.

- Set thresholds to measure group performance.

- Aggregate community-level dashboards to measure performance.

## New for 2018/2019

- Easily access the Patient Hub.

- Engage non-compliant patients.

- View care opportunities.

- Enroll patients in registry groups.
