

## TeleBehavioral Health Services “Pau Hana” Presentation

Please join us for “Pau Hana” to hear a presentation on integrated teleBehavioral Health Services for communication and coordination among patients, primary care teams, behavioral health specialists and care managers. The presentation will be given by Dr. Phil Hirsch, President and Founder of Synergia and a speaker at this year’s symposium. Learn about how access to skilled and compassionate behavioral health specialists can be provided remotely in patient homes or in the primary care clinic setting using HIPAA-compliant telehealth technology. These services are delivered at no cost to primary care practices and are billed directly to patients’ health plans.

**DATE:** Wednesday, August 21, 2019

**TIME:** 5:30-7:00 PM  
Light buffet & beverages
