

Is Independent Practice on Hawai‘i Island Sustainable? Need Member Input

We are worried about the survival of independent practices due to administrative burden, changes in reimbursements, aging physicians and hospital system expansion plans. The IPA believes that the best care is delivered by independent providers. We fear the rapid erosion of our network and want to explore ways that the IPA can build a foundation for better patient access and new provider recruitment.

Please join us to hear about and provide input to ideas to further our mission of “empowering independent providers on Hawaii Island to improve quality, increase access and lower cost to achieve better health.”

Space is limited to members only please.
