

January 15, 2020

To: East Hawaii IPA Members
From: Dr. Lynda Dolan, President 
Subject: Dr. Scott Kronlund – Transition Plans

Dr. Scott Kronlund, who has served as East Hawaii IPA’s Chief Medical Director for the past year and a half, will be returning to the mainland at the end of January 2020. Dr. Kronlund has served as the IPA’s “embedded” consultant providing strategic planning, management and clinical advice. With his leadership and expertise, the IPA is in an excellent position to move forward quickly to create more access to patients, improve the quality of care and integrate our member providers in a meaningful way. He has represented the IPA externally in the community including serving as Vice President of Community First and on the board of APG (America’s Physician Groups). Dr. Kronlund has developed effective relationships with health plans creating a foundation for closer collaboration. The EHI Board acknowledges that “mission accomplished” with respect to Dr. Kronlund’s contract with the IPA. We look forward to his continuing involvement with our IPA as a consultant upon his return to the mainland.
